RESIDENTS REDUCING WILDFIRE RISKS

How to utilize the California Required 3-Year Action Plan

Template designed for PC and may have minor formatting issues on Mac

Thank you for doing your part in protecting your community against wildfire. When possible, please seek guidance from your local fire official or your Firewise USA Regional Coordinator when completing this document, this inclusion can provide you and your community with peace of mind that experienced recommendations are focusing your community's time and efforts. Goals for this plan **must** include the "Recommendations" located on page 9 for the Firewise USA Risk Assessment document.

Also, as part of the annual renewal process communities must host one outreach event per year and work with neighbors on addressing items within the action plan as required by Firewise USA.

Please note that defensible space is required at all times for all buildings or structures within California's State Responsibility Area under Public Resource Code 4291 and for Local Governments with designated Very High Fire Hazard Severity Zones under Government Code 51182. Consult your local fire authority for local defensible space requirements if your community is outside of the land classifications above.

1. Double click in the page 2 header area and enter the name of your Firewise Community and enter the 3-year span this action plan will apply to.
2. Community description. Enter a brief description of your community. An example has been provided for you, but please replace with your own community description.
3. In the Year banner, enter the year that will apply to the Year 1 efforts. Repeat this step for years 2 and 3, entering the consecutive years.
4. Utilizing the numbered points, enter the tasks that have been identified by your community. You can add additional numbered tasks you have identified for your community; however, the Program Topics must be utilized.
5. To add additional goals under each category, simply use the last, pre-identified numbered point, to add as necessary.
6. The document will auto format and expand as information is entered.
7. Once the document is completed it can be submitted through the Firewise Portal.

Please enter a brief description of your community and delete the example below

Our local community with approximately 100 households is located within the wildland urban interface and intermix in the Sierra Nevada Mountain range. This proposed Firewise USA™ Site Community Wildfire Action Plan was developed through input received during the Summer 2020 Firewise Risk Assessment and an after-action review of the fire that affected the community. The goal of the Plan is to develop a strategy to incrementally outreach, educate, and implement efforts to make our neighborhood and the surrounding area more fire resilient.”
