### Requirements:

- **Area/Acres Limitations:**
  - Only trees within 100-300 feet of an approved & Legally Permitted Structure
  - Only trees within 100-300 feet of habitable structures on an approved residential area

- **Surface/Saddle Removal:**
  - Surfaces back parallel to the road for fuel reduction, 1' horizontal clearance, 1' minimum strip of unburned or burned, undamaged soil, treated within 45 days of treatment
  - Surfaces part or whole of fuel treatments, including woody debris, treated within 45 days of treatment

- **Archaeology Requirements:**
  - No timber operations on a significant archaeological or historical site (14 CCR § 895.1)
  - No timber operations on a significant archaeological or historical site (14 CCR § 895.1)
  - No timber operations on a significant archaeological or historical site (14 CCR § 895.1)
  - No timber operations on a significant archaeological or historical site (14 CCR § 895.1)
  - No timber operations on a significant archaeological or historical site (14 CCR § 895.1)

- **Approval Time:**
  - 5 working days from receipt
  - 10 working days from receipt

- **Effective Period:**
  - 1 year
  - 1 year

- **Other Information:**
  - Timber harvest restriction (14 CCR § 1052.4(a)(10))
  - Conducts those required of tree greater than 6" dbh out of the post-harvest time
  - Harvest limited to 6% of the timber per acre in the post-harvest time
  - Harvest limited to 6% of the timber per acre in the post-harvest time
  - Harvest limited to only 3% of the timber per acre in the post-harvest time

- **Sawdust & Woody Debris:**
  - Woody debris and woody debris deposited shall not result in significant adverse effects
  - Woody debris and woody debris deposited shall not result in significant adverse effects
  - Woody debris and woody debris deposited shall not result in significant adverse effects

- **Firebreaks:**
  - Firebreaks may be used to maintain fuel reduction, such as existing or new firebreaks
  - Firebreaks may be used to maintain fuel reduction, such as existing or new firebreaks

Additional restrictions and requirements are found in the brochure.
